

Your Partner  
in Fracture Fixation

*Innovative Orthopaedic Solutions  
for Your Surgery Center*

As your Surgery Center seeks new and more convenient ways to treat outpatient procedures, Acumed aims to provide you with the latest fracture fixation technology to best support your facility. From our comprehensive product line to our customized pricing strategies, we work with your administrators and physicians to provide value-based solutions that support your local community.

## Costs You Can Manage

With a competitive and cost-effective construct pricing structure, we aim to fit the needs of your facility, no matter how large or small. Our representatives will work with you to provide price offerings that support your annual spend management, vendor consolidation, Just in Time Inventory, and streamlined forecasting of your fracture fixation implants.

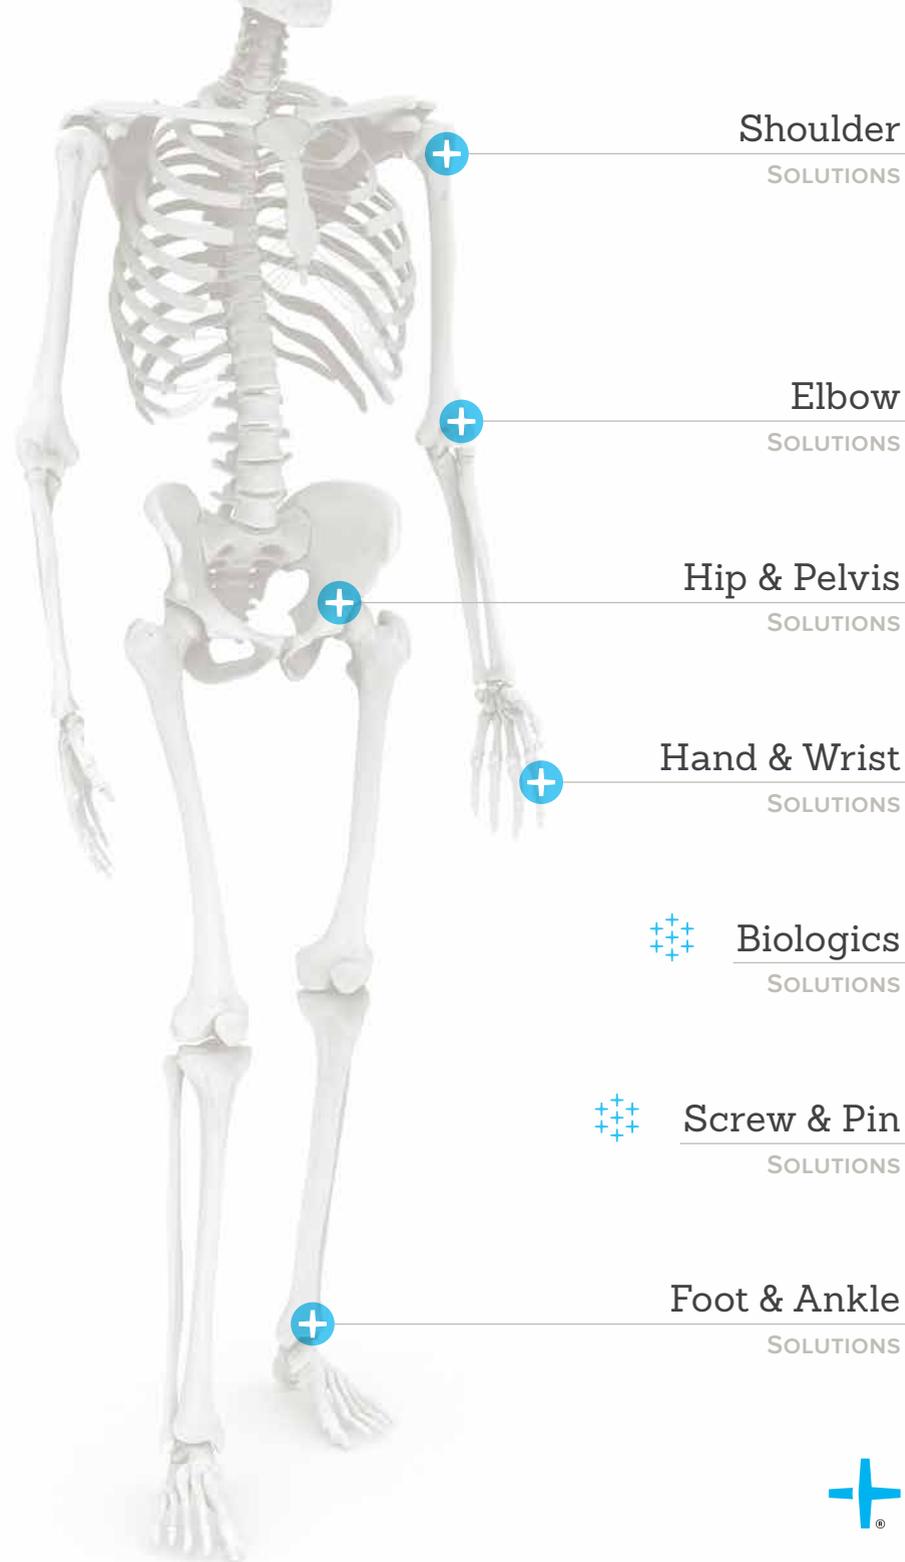

## Extensive Product Line

We offer treatment solutions for fixation, fusion, and osteotomies of the extremities. Our plates are strategically precontoured with the intent to minimize bending prior to application, which may assist in a more streamlined operating experience.

## Ongoing Support

We want your facility to succeed. It's as simple as that. We promote the safe and efficacious use of our products and provide your surgical staff access to the support they need. This includes hands-on workshops, case reviews, published resources, and surgeon-to-surgeon trainings on the latest fixation methods. And when you need live support, we're on call 24/7.
